We’re excited to report that our office will offer both virtual and in-person advising appointments during Spring 2022 (excluding the first two virtual weeks of the semester and any future changes). Erin, Keat, and Krista will have rotating in-office hours (4th floor of Rowe) on Mondays, Tuesdays, and Thursdays, and all advisors will have online availability.

To schedule an appointment:

- Attend a Spring 2022 group advising session or view a session from Fall 2021, or one from a previous semester. This semester’s group advising schedule will be announced soon.
- After attending a group advising session, schedule an appointment for Pre-Dental (Dr. Abbott) via Nexus or for Pre-Medical (all advisors) by completing the Appointment Request Form on our website. More information can be found by visiting the “Make an Appointment” page on our website.
Check out our new page!

If you have decided that a growth year is right for you or you are strongly considering a growth year as an option but are not certain what opportunities you want to pursue with your additional time, explore this page to learn about different ways to bolster your candidacy.

GROWTH YEARS

Clinical Experience Resources & Information

Our Clinical Experience webpage includes a comprehensive list of pre-health clinical experience opportunities, including hospitals and other clinical centers where both pre-medical and pre-dental UConn students have worked or volunteered. Use these as examples of locations or positions current pre-health students might try to work in, or as inspiration for finding similar opportunities!

Check out this doc with a list of Pre-health clinical opportunities!

Donate MCAT/DAT materials

Do you have gently used MCAT/DAT prep books or other resources related to the admissions process that you no longer need?

Please donate your materials to the Pre-Medical & Pre-Dental Advising Office!

Contact us at premed_preditental@uconn.edu to schedule a drop-off time.
Spring 2022 Events

Group Advising Sessions

These sessions serve as an orientation to our office for first-year students or any student new to a pre-medical/dental track.

Group Advising -- Thursday, February 3rd from 9a.m. to 10:30a.m.

UConn Hartford Group Advising -- Tuesday, February 8th from 12p.m. to 1:30p.m.

Group Advising -- Monday, March 21st from 2p.m. to 3:30p.m.

Group Advising -- Thursday, April 7th from 12:30p.m. to 2p.m.

For those planning to attend a group advising session this spring, please make sure to fill out the RSVP form located on our website here.

To view a recording of any event after it has taken place, look on our website’s Events page here.

Workshops

2023 Cycle Application Orientation -- Wednesday, January 26th from 6p.m. to 7:30p.m.

Letters of Recommendation; Whom and How to Ask -- Thursday, January 27th from 4p.m. to 5p.m.

Chat with Alumni: Osteopathic (DO) Journey -- Wednesday, February 23rd from 7:30p.m. to 8:30p.m.

Chat with Alumni: Choosing Schools to Apply to -- Wednesday, March 9th from 7:30p.m. to 8:30p.m.

Personal Statement Workshop -- Tuesday, March 22nd from 3:30p.m. to 4:30p.m.

Chat with Alumni: Mental Health in Medicine -- Wednesday, March 30th from 7:30p.m. to 8:30p.m.
2023 Cycle Applicant Corner

The 2023 Application Cycle is official underway!
For the 2023 cycle (applicants seeking to matriculate to medical/dental school in the fall of 2023), our office offers a letter packet, which includes an individualized, non evaluative cover letter written by our advisors.
*Click the link to the right to read more about our application process.*

All medical and dental applicants will be expected to submit a Health Professions Applicant Portfolio to our office.
The suggested deadline for submitting your HPAP is May 1st.
*Click the link to the right to read more about the applicant portfolio.*

Primary application dates have been released for AMCAS (MD schools) and AADSAS (dental schools)!

- The AMCAS primary opens 5/3/2022
- Application submission opens 5/26/2022
- Verified applications are sent to schools starting 6/24/2022

- The AADSAS primary opens 5/10/2022
- Application submission opens 6/1/2022

To read more about primary applications, click the link [here](#).
IMPORTANT DATES

2023 Application Cycle

AMCAS:
- May 3, 2022: primary application opens
- May 26, 2022: submission begins
- June 24, 2022: Initial transmission of applications to medical schools

AADSAS:
- May 10, 2022: 2022-23 ADEA AADSAS application and the ADEA AADSAS Fee Assistance Program (FAP) paperless opens.
- May 24-25, 2022: ADEA GoDental Virtual Fair. FREE online event. Applicants can chat with over 60+ dental schools.
- June 1, 2022: First day to submit your 2022-23 ADEA AADSAS application.
- Aug. 15, 2022 - Sept. 30, 2022: Academic Update period (1st academic period)
- Dec. 1, 2022 - Feb. 2, 2023: Academic Update period (2nd academic period)
- Dec. 15, 2022: The 2022-23 cycle dental school acceptance notification date
- Feb. 2, 2023: 2022-23 ADEA AADSAS closes
- Feb. 9, 2023: Last day to submit all official documents to ADEA AADSAS

TMDSAS:
- May 2: application becomes available at 8 a.m. CST
- September 16: submission deadline for application to veterinary schools by 5 pm CST.
- November 1: submission deadline for application to the medical and dental programs by 5 p.m. CST. Payment must be entered and submitted.

AACOMAS dates are not yet available.

CHAT WITH ALUMNI
VIRTUAL SPRING SERIES 2022

Mental Health in Medicine

Join our alumni, UConn's Medical Minds Matter chapter, and Dr. Pella to learn about caring for your mental health as a pre-med and in medical school.

Wed, March 30th 7:30pm
HTTPS://UCONNVTC.WEBEX.COM/MEET/PREADVIS

Dr. Pella is a faculty member in the Psychiatry Department at UConn Health. He completed a Master's degree in developmental psychopathology and a doctorate in developmental psychology from the University of Reading. He works with students through various stages of medical education. These stages include admissions, as a preceptor of Delivery of Clinical Care, as the Director of VITAL 1.2, and teaching in the Psychiatry Clerkship. Dr. Pella is also a basic science researcher, focusing on implementing interventions for pediatric anxiety treatment in schools.

Rohit attended UConn for undergrad from 2016-2020, where he received his degree in biomedical engineering. He is now a first year medical student at University of Connecticut School of Medicine. In his free time, he enjoys hiking, lifting and staying active as much as possible.

Rohit Makol
UConn SOM

My name is Kyle Kalotai and I am a 2nd year medical student at the New York Institute of Technology College of Osteopathic Medicine (NYITCOM). I am the current president of the emergency medicine club at NYITCOM, I am an active EMT-B, and I am wholeheartedly committed to Emergency Medicine as my future specialty. I graduated from UConn in 2019 with a Bachelors of Science in Chemistry and was heavily involved in extra curricular activities while at school.

Knit-a-THON will be this Saturday, March 26th from 2pm-4pm in the Werth Innovation Zone.

Knit-a-THON will allow everyone to try out knitting or crocheting while benefiting HuskyTHON! HuskyTHON is a year-long fundraising effort that raises money for Connecticut Children's.

At the event, knitting kits will be sold for $10 for non-members and $5 for K4N members, payable via venmo, cash, or card. The knitting kits will include yarn, knitting needles or a crochet hook, a pattern tutorial, and one ticket that will enter you to win prizes valued at over $50! There will be follow-along tutorials led by our teaching committee, helping people of all levels in making their creations. Creation options include cup coasters, hair scrunchies, and bandanas. All kits and their contents are for the purchaser to keep!

ALL of the proceeds from this event will go to HuskyTHON, which benefits Connecticut Children's.

We hope that you and everyone you know join us at this event -- we are so excited! Please bring a friend or two! This event will be first come, first serve!
Physiology and Neurobiology Society

Guest Speaker: Dr. Jason K. Kim

When: April 12th at 6:00pm
Where: ITE C80

Dr. Jason K. Kim is a professor from the University of Massachusetts Medical School and will be speaking to our club about careers in medicine and his research on insulin resistance and type 2 diabetes. He is also on the MD/PhD Admissions Committee!

Feel free to join us on April 12 if you are interested in hearing more! Email uconn.pnbsociety@gmail.com if you are interested or would like more information.

Rutgers NJMS: Admissions Information Sessions for prospective medical school students

Our upcoming events are designed to offer students considering a career in medicine the opportunity to learn more about Rutgers New Jersey Medical School (NJMS) including all aspects of our application and interview process, the curriculum, clinical and research opportunities, student programs and student support services.

Our Virtual Admissions Information Sessions will outline topics such as:
- The Application Process
  - Applying Early Decision
- The AMCAS Application
- Coursework/GPA: How this information is reviewed by the admissions committee
- The MCAT: How it is used by the admissions committee
- Personal Statement/Listing of Activities: Key points and elements to include
- Letters of Recommendation: Proper protocol
- Research/Extracurricular/Leadership Activities: How to convey experience, leadership ability and interest in medicine
- The Interview: Tips on how to prepare; The role of an interview in the admission process
- Growth/Gap Year(s): How to use this time

The NJMS Admissions Process (please register for only one):
- Thursday, April 7th 4:00pm – 6:00pm – Register Now
- Wednesday, April 20th 4:00pm – 6:00pm – Register Now

If you have any questions or require additional information, please feel free to contact us at njmsadmiss@njms.rutgers.edu.

Health Career Certs: Accelerated Online Healthcare Certifications

HealthCareer Certs is an online allied health training platform. Our training programs are approved through the National Healthcareer Association (NHA), American Medical Certification Association (AMAC), the Virginia Board of Pharmacy, and the Pharmacy Technician Certification Board (PTCB).

Clinical experiences are an essential step towards pursuing a career in the healthcare system. Allied health certificates are the shortest way for a pre-health student to gain hands-on clinical experience. This experience makes the student stand out as a stronger applicant for medical, PA, and pharmacy schools.

Our program offers the following courses:

- **Certified Clinical Medical Assistant (CCMA):** This course is an online self-paced program that prepares students to gain a certificate and be work-ready in diverse medical specialties as certified clinical medical assistants.

- **Certified Patient Care Technician (CPCT):** This online self-paced course prepares students for a nationally accredited industry certification exam. Plus, our clinical training prepares students for externship and subsequent employment opportunities.

- **Certified Pharmacy Technician (CPhT):** This fully online pharmacy technician training & certification course will prepare students for a nationally accredited industry certification exam in as little as 12 weeks. We also offer hands-on training with externship placement at CVS, Walgreens, or a hospital pharmacy.

Given the economic hardships caused by the pandemic, we would like to extend a special $400 Scholarship to UCONN students for any certification programs they choose to enroll in from now through the end of March. **Use the code "uconnscholar" to receive the $400 scholarship.**

One full scholarship for minority women in also healthcare is available. Find the application attached or email info@healthcareercerts.org.

Health Professions Scholarship Program (HPSP)

A scholarship program designed to provide financial incentives for students in designated health care professions to complete degree/certification requirements and obtain a commission in the Medical Corps (MC), Dental Corps (DC), or Medical Service Corps (MSC).

**Designated Health Professions**

Medical, Dental, Clinical Psychology, Optometry, and Physician Assistant

**Benefits**

- Covers 100% of school tuition
- Monthly allowance $2,466.00 to cover living expenses for up to 4 years
- Sign-on bonus of up to $20,000 (only available for Medical & Dental)
- Full reimbursement for required textbooks, equipment, and supplies

**Qualifications**

- Be a U.S. citizen
- Be between the ages of 18 and 42
- Be accepted for admission to, or enrolled in an accredited institution in the U.S. or Puerto Rico and in a course of study for a designated health profession
- A cumulative grade point average (GPA) of at least 3.0 on a 4.0 scale (3.2 on a 4.0 scale for Medical health professions)
- Must maintain status as a full-time student
- Be in good physical condition and pass a full medical examination

**Service Obligation**

- Active Duty payback is one year for each year in the program
  - Three year minimum (four year minimum if sign-on bonus is taken)

**Steps to Apply**

1. Contact your local Navy Medical Officer Program Specialist
2. Organize necessary paperwork
3. Complete and submit your application

HM1 (FMF) Chua, Rey Victor

International Summer School – 30th June to 21st July 2022

Our accredited program this year will run on our Streatham campus in Exeter with various trips to different places in the south west of the UK and a 4 day trip to London. We are currently running courses on campus in the following areas with each course worth 7.5 ECTS (3/4 US credits) and students can choose to join up to two classes in the same session.

- Art History and Culture
- Bio Engineering
- British Culture
- Drama
- English Literature
- Geography and Climate Change
- History
- Law
- Medicine and Healthcare
- Project Management
- Psychology

Applications are now open for our on campus program at a cost of £2,500 for one course or £3,250 for two courses which includes accommodation, social activities and trips, and other associated program costs. Scholarships of up to £500 are also available on this program.

Sustainability Summer Program – 30th June to 21st July 2022

At our 2022 Sustainability Summer School programme, we offer students the chance to join our world class academic colleagues from the College of Engineering, Mathematics, and Physical Sciences to look at the concept of Sustainability and how STEM can help society work towards this goal. Within this accredited course (7.5 ECTS or 3/4 US credits) students will explore different areas of STEM, and then a single area of focus within a project, with a view to encouraging and inspiring innovations by bringing people together from all over the world to work on practical solutions.

The students on this program will share social activities and trips with the International Summer School to give everyone an even wider range of international perspectives and opportunities to make connections outside of their own classes.

This program is also open for application at a cost of £2,500 for the course and includes accommodation, social activities and trips, and other associated program costs.

Learn more about the programs here!
Camp Promise is actively seeking energetic, highly motivated, and responsible individuals to serve as camp counselors in Washington, Colorado & Pennsylvania this summer! Counselors are individuals interested in serving our population of campers with muscular dystrophy and neuromuscular diseases. Volunteers who serve as counselors typically possess patience and creativity, and have an upbeat disposition.

Counselors work one-on-one with the same camper for the duration of the camp session. Counselors serve as their camper’s primary caregiver and are responsible for being a buddy to their camper throughout the week. They also assist and encourage all campers to participate in activities, assist other counselors in providing personal care to their campers, and guide campers in their personal growth and acquisition of independence. Being a cabin counselor is an overnight position. Volunteers will earn 146 hours of community service, along with a life changing experience and memories to last a lifetime! Come and experience the magic of Camp Promise with us!
Boston University School of Medicine
Graduate Medical Sciences

MASTER OF SCIENCE IN ORAL HEALTH SCIENCES

Program Overview
The M.S. in Oral Health Sciences provides an academically rigorous learning experience for students who are interested in strengthening their knowledge of the biomedical sciences. The curriculum builds critical thinking and research skills while preparing students for admission to dental school and other health-related professions.

The program, which can be completed in one or two years (two-year students complete a research thesis), emphasizes rigorous academics, collaboration, and professional development. The OHS program has had tremendous success with 90% of its graduates accepted into U.S. dental schools.

Program Highlights
- One of the only programs in the U.S. that allows students to take DMD classes with first year DMD students (3 of the DMD program’s required classes in the live/stream format)
- Highly effective program - last year 38 of 40 program graduates were admitted into dental schools
- Full-time, 32-credit program begins in late July and can be completed in one calendar year
- Program includes 11 elective credits as well as a Capstone or Thesis final project
- Courses taught by world-class faculty from Boston University’s School of Medicine and Boston University’s Goldman School of Dental Medicine – most faculty are also active dentists and researchers
- High levels of mentoring and advising provided to support each student’s success and an Enrichment Series to build networking and professionalism development skills
- Committed to improving the demographic balance of the dental profession – underrepresented groups, including minority and socioeconomically disadvantaged students, are encouraged to apply
- To be eligible for admission, students must be U.S. or Canadian residents, must have graduated from a four-year college or university in the United States or Canada, and completed the pre-dental prerequisites
- The degree is awarded by Boston University School of Medicine

"OHS has taught me several valuable skills that guided me towards my success in my first semester at dental school. I can guarantee that this program will prepare you with the mindset and work habits that will contribute to success towards your dental profession.

- Omer E., OHS Alumni
Tufts University School of Dental Medicine, Class of 2022"

Post Graduate Research Position

Clinical Research Coordinator

Brigham and Women’s Hospital -- Boston, MA

The Women’s Hormones and Aging Research Program (WHARP) is a clinical and translational research program within the Department of Psychiatry at Brigham and Women’s Hospital (BWH). Our program conducts a series of studies focused on the hormonal and neural basis of depression, sleep disturbance, stress, hot flashes, and metabolism. Our clinical protocols utilize a variety of designs and procedures, including both randomized trials and observational studies, overnight study visits on a sleep monitoring research unit, blinded medication/placebo administration, MRI scanning, biosample assays, and psychological testing and assessments.

The research program comprises the Principal Investigator, clinical research psychiatrists and psychologists, sleep and endocrine researchers, a Director of Research Program Management, Research Coordinators, and volunteer Trainees. The Research Coordinator will be an instrumental part of the team, learning to conduct the day-to-day implementation of clinical research protocols, as well as how to contribute to data analyses, study start-up processes, regulatory management, and, possibly, assistance with abstract and manuscript preparation. They will work closely with the rest of the WHARP team under the guidance of the Director of Research Program Management and the Principal Investigator.

The CRC would be responsible for conducting clinical research in a large academic institution with WHARP. This position would be a great fit for a recent college graduate interested in women’s mental health, clinical research, aging and quality of life outcomes, hormones & endocrinology, and plans to apply to medical school or clinical psychology programs in the next 2-3 years.

Qualified and enthusiastic applicants are encouraged to review our lab’s website (www.brighamwharp.org), send a resume and cover letter to me directly at aroy19@bwh.harvard.edu, and submit an application using the link below.

Learn more and apply!

BRIGHAM HEALTH

BRIGHAM AND WOMEN’S HOSPITAL
Post Graduate Research Position

Clinical Research Coordinator

Massachusetts General Hospital - Center for Women's Mental Health

Program Description:
The Center for Women’s Mental Health is a clinical and research program within the Department of Psychiatry at Massachusetts General Hospital. Our Program is dedicated to the evaluation and treatment of psychiatric disorders associated with female reproductive function. The Center provides a range of clinical services to women which include: consultation regarding the use of psychiatric medications during pregnancy; treatment for postpartum mood and anxiety disorders; treatment for premenstrual syndrome; and treatment of menopause related mood and anxiety symptoms, sleep disorders, and hot flashes. The goal of our research division is to examine a wide range of questions which affect the lives of women with psychiatric conditions. Our research projects mirror the span of our center’s clinical expertise. For more information about the clinical and research program, please visit our website: www.womensmentalhealth.org.

Responsibilities:
The research coordinators in our Program are each assigned 1-2 active research projects and are responsible for the implementation of those projects under the guidance of the principal investigator(s) and the supervision of the senior research coordinator.

The research coordinators are primarily responsible for the following research activities:
- Conducting research visits with study patients and study clinicians
- Managing the recruitment, screening and enrollment of research patients
- Administering psychiatric assessments
- Phlebotomy and specimen preparation (a phlebotomy course is offered at MGH)
- Data collection and entry, and database management
- Preparation and submission of research protocols to the IRB
- Ensuring compliance with the Partners IRB and other federal and institutional guidelines
- Periodic special projects, such as a grant submission or a journal article submission

Work Environment:
Currently, our group is made up of five research coordinators, a senior research coordinator, a program coordinator, a biostatistician, and eight psychiatrists, two of whom are principal investigators, including the Director. The research coordinators work closely with the study principal investigators and meet twice weekly as a group to review study progress. This is a full-time hourly position with a 9:00-5:30 workday and a ½ hour unpaid lunch. Our Program is located in the Simches Research Building in a combined administrative and clinical space and all work is conducted on-site, permitting hospital instruction around COVID-19.

Qualifications:
We are looking for candidates who possess at least a bachelor’s degree. At least one year of research experience, paid or un-paid, is preferred but not required. The salary for this full-time position will start at $43,680 per year, and benefits are available. Candidates who can start in May or early June of 2022 are preferred. A two-year commitment is strongly preferred.

Note: Amidst ongoing COVID-19 pandemic, a hybrid work model is in place. Relocation to Boston is required for this position.

Skills:
- Critical thinking skills and ability to independently resolve problems
- Careful attention to details
- Time management and ability to prioritize
- Written and verbal communication skills
- Microsoft Office and general computer literacy
- Data management and analysis knowledge is advantageous though not required

Interested applicants may send cover letters and resumes to Program Coordinator Bryn Rediger at brediger@partners.org
The Pre-Health Networking fair will feature 30+ graduate programs from schools across the country. Attendees will be able to speak individually or in group settings with professionals from graduate programs like Medical, Physical Therapy, Occupational Therapy, Dental, Physician Assistant, Public Health, and more!

Medical Scribe/ Medical Assistant
Full- Time Position- Open to Applicants
Start Date June 2022 or Earlier

Medical Scribe/ Medical Assistant needed at Skin Cancer clinic in Falmouth.

- Excellent spelling, some knowledge of medical terminology and **attention to details** is a must.
- Must be a good typist (must be able to type at least 50 wpm)
- Willing to teach medical terminology to somebody who has good typing / spelling skills.
- The candidate should be quick, efficient, polite, friendly and be a people person.
- The workdays are Mon, Wed, Thurs (8 hours per day).
- On Tuesday and Friday an applicant will have a choice of working 4- or 8-hour day
- Ideal for a student (medical, nursing, physician assistant), if they are starting school in May 2023 or later.
- Great opportunity to learn medical terminology, and to get involved in patient care
- We accommodate the need to take time off for interviews for medical schools, etc

This is a year-long position. No short-term applicants please.
